

CANCELLATION POLICY

For all Vascular Ultrasound and
Nuclear Cardiology (Myoview) Studies

Effective: July 1, 2003

We are notifying patients of our Cancellation Policy for all Vascular Ultrasound and Nuclear Cardiology (Myoview) studies scheduled at the main office of Fort Wayne Cardiology. It is important to maximize our schedule to accommodate all of our patients. Due to the large number of patients waiting for these procedures and the time and cost of supplies involved in scheduling and preparing for these studies, we find it necessary to implement the following Cancellation Policy.

If you must cancel or reschedule your appointment for a Vascular Ultrasound or Nuclear Cardiology (Myoview) study, we ask that you provide us with a minimum notice of one (1) business day. For example, if you are scheduled for a test at 1:00 pm on Wednesday, you must notify the office no later than 1:00 pm on Tuesday. If you must cancel or reschedule for a Monday appointment you must call us by 9:00 am the Friday before. This will allow us to schedule another patient in this time slot. If we do not receive the appropriate notice, you will be charged a \$25.00 missed appointment fee. This charge is not covered by insurance, Medicare or Medicaid.

We thank you in advance for your cooperation and consideration of other patients.
